FINAL NOTATIONS

it will not be simple, it will not be long
 it will take little time, it will take all your thought
 it will take all your heart, it will take all your breath
 it will be short, it will not be simple

it will touch through your ribs, it will take all your heart
 it will not be long, it will occupy your thought
 as a city is occupied, as a bed is occupied
 it will take all your flesh, it will not be simple

You are coming into us who cannot withstand you
 you are coming into us who never wanted to withstand you
 you are taking parts of us into places never planned
 you are going far away with pieces of our lives

it will be short, it will take all your breath
 it will not be simple, it will become your will
